

# E1500 *plus*

## Built to Handle Harsh Australian Goldfields

The AlgoForce E1500 Plus is packed with practical features for serious gold prospecting. With advanced pulse induction performance, Target ID, Auto Ground Balance, frequency scan, adjustable audio settings, vibration feedback, and compatibility with GPX mono coils, it's built to perform in mineralised ground, wet sand, and high-EMI areas.

Fine-tune your setup and chase gold with confidence.

### KEY HIGHLIGHTS

Advanced Pulse Induction Performance

Target ID & Auto Ground Balance

Frequency Scan & Adjustable Audio Settings

Compatible with GPX Mono Coils

Built for Mineralised Ground, Wet Sand & High-EMI Areas

**2 YEAR**  
FACTORY WARRANTY

DESIGNED FOR  
**AUSTRALIAN**  
CONDITIONS

## E1500 *plus*

### Key Features & Specifications

Packed with practical technology for serious prospectors, the E1500 Plus combines ultra-fine sensitivity, flexible controls, lightweight portability, and USB-powered convenience.

#### PERFORMANCE

- Patented Ultra-Fine pulse induction technology for detecting small gold nuggets
- Exceptional performance in finding fine jewellery, coins, and other treasures on the beach
- Wide sensitivity range
- Stable conductive Target ID (0-99) in pinpoint mode even in highly mineralised soils
- Dual ground balanced detection channels for different sized nuggets
- Real time scrolling signal display

#### CONTROLS & OPERATION

- Advanced and Beginner User Interface Modes
- Four detection modes – Ultra-Fine, Fine, Normal, Large
- Three Pulse Delay Options for Large Detection Mode
- Three Soil Type Options – Mineralised, Mild, and Beach
- Coil optimisation function, with five coil save slots
- Auto or Manual Frequency Scan (Noise Cancel)
- Auto Ground Balance
- Independent threshold, tone and volume levels
- Adjustable Backlight
- Patented technology for ambient sound awareness in headphone mode

#### DESIGN & PORTABILITY

- 3-piece carbon fibre shaft for compact pack down
- Lightweight (less than 850g without coil or power bank)
- Compatible with all 5-pin SD/GP/GPX series compatible mono coils\*

#### POWER & COMPATIBILITY

- Powered by any portable USB power bank (not included)
- More than 20 hours of battery life for a common 15000mAh power bank

**ULTRA-FINE PI TECHNOLOGY**  
Detects small gold nuggets

**USB POWER BANK POWERED**  
Convenient & ready anywhere

**TARGET ID 0-99**  
Stable in highly mineralised soils

**4 DETECTION MODES**  
Ultra-Fine, Fine, Normal, Large

**3 SOIL TYPES**  
Mineralised, Mild, and Beach

**20+ HOURS RUNTIME**  
with a 15000mAh power bank

\*Coils sold separately.  
5-pin SD/GP/GPX series compatible mono coils only.

**2 YEAR**  
FACTORY WARRANTY
